PROJECTS

annual.awwwards.com —

Created A website with pixi.js. fully responsive with GSAP Animation. This was done using HTML, CSS, JavaScript.   My work can be seen at:

https://shrutika141.github.io/Awwwards/index.html

Bubble Game —

Created A Game using HTML, CSS and JavaScript. You can choose the current number that's show in output, if you choose the correct number then it's automatically increase your score;
My work can be seen at:
  https://shrutika141.github.io/bubblegame/

Archinterior —

In this I have got some basic knowledge about HTML, CSS and JAVASCRIPT too. Just have a look. I tried something new for the first time when I started learning about UI/UX design.
My work can be seen at:
